# AIMS

Project aims to enhance river-based green infrastructure by:

- 1) integrating ecosystem and landscape concepts in to the planning and
- 2) integrated management of the lowland rivers at local and regional scale.

# Project conceptual framework

# PATH TO REACH THE AIMS

This will be achieved by:

- 1) strengthening cooperation between public authorities and stakeholders  
and
- 2) supporting local and regional authorities with know-how by implementing measures and practices to enhance river based green infrastructure.

# MAIN ACTIVITIES AND OUTCOMES

The project will:

- ❖ establish cooperation via the Stakeholder Panel and training components on landscape and green infrastructure planning and management;
- ❖ elaborate methodology for Regional Landscape and Green Infrastructure Planning in Lowland Areas;
- ❖ develop 4 plans of Landscape and Green Infrastructure (Zemgale Planning Region, Bauska municipality, Svete river catchment, Biržai Town);
- ❖ implement different type measures/actions for enhancing green infrastructure at different locations in the cross border area (clean up of river, landscaping, restoration, enhancement works).

# Project approach

# BUDGET
